RESEARCH INTERESTS

Psychology of social class

Ideological antecedents and consequences of inequality

Teachers and school's role in the reproduction of educational inequalities

Research domains: Intergroup relations • Achievement gap • Social class inequalities

RESEARCH HIGHLIGHT

- School policies and inequality in school (gender, social class, ethnicity, immigration status)
 - Teacher practices and bias (e.g., evaluation methods)
 - Impact of school-related beliefs on population's policy attitudes
- Nation-wide longitudinal experiment ($N = 10'000$) of jigsaw classrooms (cooperative learning)
- Large-scale replication of psychology of social class models (35 hypotheses, $N = 33'000$)

TEACHING HIGHLIGHT

- Determinants of school performance (e.g., motivation, self-efficacy, achievement goals)
 - Interventions to reduce achievement gaps
- Multilevel determinants of inequality in school (policies, school culture, evaluation practices, teachers' behavior, students' beliefs)
 - Research methodology (hypothesis, operationalization, statistics, writing)
 - Challenges of a multicultural society (e.g., Intergroup relations)
